

Project Manager needed to oversee all aspects of the *Virginia Juvenile Justice Service Coordination Project* for the **Western region** of Virginia. This project is managed by Evidence-Based Associates (EBA; www.evidencebasedassociates.com) and funded by the Virginia Department of Juvenile Justice (DJJ). Virginia DJJ is at the forefront of developing programs and services to strengthen and improve community safety as well as working to reduce recidivism rates through programs and services provided to court involved youth. EBA was contracted by DJJ in Virginia to develop a continuum of effective, evidence-based, and community-based services (see <https://governor.virginia.gov/newsroom/newsarticle?articleId=18132>).

Key responsibilities: working with the Project Director to manage referrals from Court Service Units; oversee utilization review/ treatment coordination, and manage the reporting process for system-involved youth; to support the development of evidence-based programs; and to provide program oversight including QA for all youth services delivered by subcontracted providers in the region, including ensuring accurate data collection.

Qualifications: Two years' relevant program/project management experience (i.e., in social / human services) desired. Bachelor's required; Master's preferred. Demonstrative interpersonal and cultural competency skills to work effectively with a variety of direct service providers, juvenile justice leaders/ administrators, and government policy staff. Also: openness to feedback and data-driven accountability as well as ability and comfort with giving feedback and holding others accountable to quality assurance are required. A background (especially clinical) working with system-involved youth and families in Virginia is a plus. Salary commensurate with education and experience. Strong preference for an individual living in the region; frequent travel around Western Region is required. Please send resume, two references, and salary requirements to: mmcalister@ebanetwork.com.
